Cambridge, Mass., July 8.—While Yale has led the big edge on Harvard in most sports this season, the Crimson by virtue of its crew and baseball victories, jumps well to the fore in the big pastime.

Both the lawn tennis and golf matches went to Yale a few weeks ago, but Harvard won the lacrosse

Among those in the stands were the duke of York, admiral Baron and lady Beatty, president Ribben and deca McLaughlin of Princeton, vicount Bryce and the American ambassador, John W. Davis.

NEW CHIEF OF INTERNAL
REVENUE REACHES EL PASO

J. T. Hughes, chief of the field force of the internal revenue department, who was recently appointed division chief for this district, has arrived in El Paso. Mr. Hughes was formerly at Austin. His transfer was simultaneous with making El Paso the division headquarters of the first collection district of Texas, which covers 11 counties.

W. H. Black, deputy internal revenue collector, will continue at the head of the local office while Mr. Hughes has charge of the entire division. The local office at present is busy with local taxes.

SWATSMAN BABE
STARTED EARLY

It looked bad for the Young Orioles who were playing the Eagles in one of the back lots of Baltimore. Chester Smith's father had pulled him right out of the game just when the score was tied in the fifth, and Chester Smith was the hardest hitter, in fact, he was the "clencher man" in the Young Orioles' batting order.

A ragged boy, who had been watching the game, pushed his way over to the captain of the Young Orioles. He was one of the boys from the Orphans' home near by. "Let me hit it, just once," pleaded the ragged boy.

Guess Who?

The captain handed him the bat and the ragged boy stood by the tin can that was the home plate. He swung on the first pitched ball and he swung with all his might. The sphere soared right out of the lot. It was a home run and the Young Orioles won in the ninth.

That orphan boy was "Babe" Ruth, who holds the record for hitting home runs. He is no longer a ragged boy for his salary is \$20,000 a year.

Interest Payable Without Deduction of Normal Federal Income Tax Not in Excess of 2%.

CONTINENTAL AND COMMERCIAL TRUST AND SAVINGS BANK, CHICAGO, TRUSTEE

Convertible on and after January 3, 1921, and prior to maturity or redemption date, par for par, into Armour & Company class "A" common stock, to be presently authorized, which under present laws will be exempt from personal property taxes in the state of Illinois.

Further information in regard to this issue is given in a letter of Mr. J. Ogden Armour, president of Armour and Company, from which we summarize as follows:

The proceeds as derived from the sale of this issue will be devoted to the reduction of current liabilities, thereby not increasing present indebtedness.

These notes will be the direct obligations of Armour and Company. Total assets as of November 1, 1919 (the close of the company's fiscal year), were \$490,809,643.34. There is no lien of any kind upon the property of the company, except its first closed mortgage (dated June 1, 1909, due June 1, 1939) for \$50,000,000, which is a lien upon approximately \$57,500,000 out of a total of \$147,811,885.52 capital assets. The net current assets of the company, after giving effect to the proceeds of the sale of \$60,000,000 of these notes, will be approximately \$230,000,000.

During the four years ended November 1, 1919, the average annual earnings of the company were \$26,139,245 available for interest charges after federal taxes. These figures do not include any earnings of South American subsidiaries which for the same period averaged approximately \$6,003,500 per annum and which latter sum has been retained by the subsidiaries to finance their development and for this reason has not been taken on the books of Armour and Company. These combined earnings would total \$32,142,745. The average annual interest charges (including interest on bonds, but excluding interest on debentures heretofore converted into preferred stock) have been approximately \$7,540,000. During this period over \$85,761,000 net earnings have been retained in

the business, after paying cash dividends amounting to \$8,993,000.

The indenture under which these notes are to be issued will provide, among other things, that no additional mortgage shall be placed on the properties and assets of the company, which does not equally secure these notes by the lien of such mortgage.

The indenture will furthermore contain a covenant that current assets of the company shall be maintained in an aggregate amount equal to at least one and one half times all current liabilities, including these notes and any other issue of notes or debentures at any time outstanding.

The company proposes to reclassify its capital stock and authorize \$150,000,000 class "A" common stock, of which \$50,000,000 will be immediately issued, and \$150,000,000 class "B" common stock, all to be immediately issued. Of the unissued class "A" stock, \$60,000,000 will be reserved to be available for exchange for the 7 percent 10-year convertible gold notes. Class "A" common stock will have preference as to cash dividends up to 8 percent over class "B" common stock, and after 8 percent has been paid on class "B" common stock in any year, both classes of common stock will share alike in percentage of additional dividends paid during such year. Each share of class "A" common stock shall be entitled to all the rights of any share of the common stock of the company.

PRICE 94.84 AND INTEREST, YIELDING 7.75%.

All legal matters will be approved by Messrs. Mayer, Meyer, Austrian and Platt, Chicago, and Rushmore, Babcock, and Stern, New York City. Temporary negotiable certificates, exchangeable for definitive notes, will be delivered, when, as if issued and received by us.
